

PERSONAL PERSPECTIVE PRESENTATION

*This presentation helps the audience understand Lisa and her struggle with eating disorders. This presentation is well received and impactful. Appropriate for ages 13 and up students and adults alike have applauded the fact that this is being shared. By bringing awareness of eating disorders to the forefront. Student, parent, providers, mental health professionals, and groups alike use this as a helpful educational tool. **This presentation is free of charge.** If you would like us to share Lisa's story in your school or organization contact us today at:*
